

Poly-Feed[®] Foliar

Water-soluble NPK fertilizer for Foliar Application
Poly-Vineyard 4-15-37+3MgO WITH MICRO NUTRIENTS

PRODUCT INFORMATION

ANALYTE	TYPICAL
Total nitrogen (N)	4.0%
Nitrate nitrogen (N-NO ₃)	4.0%
Phosphorus (P ₂ O ₅)	15%
Soluble potash (K ₂ O)	37%
Magnesium oxide (MgO)	3%
Micro nutrients	
Fe*	2300 ppm
Mn*	500 ppm
B	200 ppm
Zn*	150 ppm
Cu*	110 ppm
Mo	70 ppm

* EDTA chelated

Primary Nutrient Sources: Potassium Nitrate, Mono potassium phosphate, Potassium Sulphate, and Magnesium Sulphate.

The raw materials used for micro-elements are salts of Boron, Molybdenum and chelated (EDTA) Fe, Mn, Zn, Cu.

P₂O₅ and K₂O are completely soluble in water and neutral ammonium citrate.

Packaging: 10Kg and 25Kg Polyethylene bag.

Uses: Fertilizer for foliar feeding.

Updated: May 2005
